Allowable Subject Matter

1. Claims 1-3 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The present invention as claimed involves a stereo imaging unit having at least two entrance pupils and imaging means forming a first image for the left eye and a second image for the right eye which have parallax. A stereo display unit having two image display means displaying two images formed by the stereo imaging unit. The system also includes the stereo imaging unit has the depth of field at least 10 times the distance between the centers of the two entrance pupils. The novel features include the stereo display unit is constructed so that an angle of vergence (an outward angle) is made by a line of sight of a left eye of an observer viewing a center of the first image displayed by the image display means with a line of sight of a right eye of the observer viewing a center of the second image displayed by the image display means, and the angle of vergence satisfies the condition that takes in account of the angle of vergence for an inwardly angle, the distance between centers of the two entrance pupils of the stereo imaging unit, distance from a far point of a depth of field of the stereo imaging unit to the entrance pupils of the stereo imaging unit, distance from a near point of the depth of field of the stereo imaging unit to the entrance pupils of the stereo imaging unit, field angle of the stereo imaging unit, field angle of the stereo display unit, interpupillary distance of the observer, distance from a pupil position of the observer to an observation image, and establishing a relationship between the inwardly angle of vergence and the outwardly angle of vergence.

The prior art of record fails to anticipate or render obviousness the limitations as highlighted above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
